Early Impressions.

The little, or almost insensible impressions on our tender infancies have very important and lasting consequences; and there it is as in the fountains of some rivers, where a gentle application of the hand turns the flexible waters into channels that make them take quite contrary courses; and by this little direction, given them at first, in the source, they receive different tendencies, and arrive at last at very remote and distant places.—Locke.

YOUR DRUGGIST

Does not keep Pinkham's Compound. He sells it.

During the year 1920, nearly 3,000,000 bottles of this medicine were shipped from the factory at Lynn, Massachusetts. There is also a branch in Canada and one in Mexico.

Lydia E. Pinkham's Vegetable Compound has the largest sale of any medicine for women's ailments. Every day, more and more women are proving its worth. Made of selected roots and herbs, this compound contains no harmful drugs and can be taken in safety by any woman.—Advertisement.

Peculiar Reckoning.

When Harry de Windt visited the Siberian Ostiaks he found that they calculated quite long distances in terms of kettles, an almost identical custom at the other end of Asia. If a journey was five kettles long an explorer found they meant that it would take as long as it would to boil five kettles of cold water in succession.

Extending Old Adage.

A stitch in time saves nine. This is as true of characters as it is of cloths. Besides the increased labor when nine stitches are needed there is the liability of a poor job of mending. The less mending in this world the better for all concerned.

Shifting the Responsibility. Another sign that the modern men are improving is that some now blame the federal reserve banks instead of their wives.—Galveston News.

GRISWOLD'S POND

Offers the only opportunity in Bennington village for a refreshing plunge or swim.

Pure water of comfortable temperature.

Deep enough for diving, but shallow enough to insure perfect safety for the timid ones who cannot swim.

Convenient and sanitary building in which to disrobe or obtain shelter from storms. Two ponds—one especially for the wee tots if they care to use it.

An opportunity for old and young to learn to swim without embarrassment, or to just splash around and have a good time.

Lighted after dark by electricity.

Open all day and at night by appointment with parties wishing to bathe in the late evening.

Get up a picnic party, bring your evening lunch and enjoy the water before satisfying the whale of an appetite it will give you.

A charge of 10c for all under 16 years of age and 25c for adults will be made for the use of bath house and bathing privileges, but admission to the grounds is free.
